

Milford Recreation presents...

School Vacation Fun Days

Tuesday, 2/28: Sub-Zero Presentation & Movie

All ages welcome: The Coolest Catering in town is coming to Milford Recreation Department. Sub-Zero Ice Cream and Yogurt teaches children a real world application of science by demonstrating how liquid nitrogen can be harnessed to freeze fresh ingredients into ice cream. Not only does the process keep the children entertained with billows of non-toxic nitrogen "smoke", but Sub-Zero will discuss concepts such as the elemental properties of nitrogen, gas laws, the Leidenfrost Effect and the application of science to food. Plus, the children get to eat the fruits of their academic labors with ice cream samples. After you receive Ice-Cream you will get to watch a Movie on the Big Projection Screen. Movie TBD

1-3pm \$5pp

Thursday, 3/2: Wildlife Encounters

Wildlife Encounters will be coming to Milford Recreation Department. You will have an opportunity to meet the "Faces of Nature" through a dynamic and interactive animal presentation. This program has "Hands on" potential with some of the smaller, interactive, animals.

10-11am \$5pp, "crawlers" and infants FREE.
